

REMARKS

This is intended as a full and complete response to the Restriction Action dated August 3, 2004, having a shortened statutory period for response set to expire on October 3, 2004. Please reconsider the claims pending in the application for reasons discussed below.

Claims 1 - 34 remain pending in the application and are shown above. Claims 1-34 are subject to a restriction or election requirement. Claims 14 - 34 are canceled. Claims 1 and 13 are amended to correct matters of form. Claim 11 has been amended to change its dependency. These amendments are not presented to distinguish a reference, thus, the claims as amended are entitled to a full range of equivalents.

Restriction to one of the following inventions is required under 35 U.S.C. § 121.

- I. Claims 1-10, drawn to a combination, classified in class 451, subclass 5.
- II. Claims 11-13, drawn to a subcombination, classified in class 451, subclass 460.
- III. Claims 14-38, drawn to a method, classified in class 451, subclass 41.

Applicant elects Invention I, with traverse. Claim 11 has been amended to depend on claim 1 because claims 11-13 recite features of the substrate support presented in claim 1. Claim 14 has been amended to more closely correspond to the subject matter of claim 1. Reconsideration of the restriction requirement is respectfully requested.

Having addressed all issues set out in the Restriction Requirement, Applicant respectfully submits that the claims are in condition for examination and respectfully request that the claims be examined.

Respectfully submitted,

Keith M. Tackett
